Parking Lot Safety

As you know, we're all about safety here at Sharpline. Whether you are a driver or a pedestrian, being mindful of safety measures in the parking lot can prevent accidents and help ensure a pleasant work experience for everyone involved.

Parking lots are high-traffic areas with vehicles, pedestrians, delivery trucks, and more. Being aware of potential hazards and following safety guidelines is essential to prevent accidents and injuries.

Here are some key tips to enhance parking lot safety:

1. **Slow Down:** It's crucial to reduce speed while navigating through parking lots to account for pedestrians and other vehicles. Keep your speed under 5 MPH.
2. **Park between the lines.** Let's eliminate door dings this spring!
3. **Be Alert:** Pay attention to your surroundings, avoid distractions, and make eye contact with other drivers before crossing their path.

Practicing parking lot safety is a shared responsibility. By following these tips and being mindful of others, we can create a safer and more pleasant parking lot experience for everyone.

Let's save the "March Madness" for the basketball court!

Happy Birthday

March

ing day(s) without a report-
able injury. 2nd, 3rd, and
Weekend shift have gone
138 days.

Safety Bingo Winners:

Jose Cabral – 2nd - \$150
Karen Pierce – 2nd - \$175

I tried to catch the fog...

...but I mist.

Fun CAPTURED

Our own Jaci Mohr was spotted at Work Truck Week in Indianapolis, catching up with some of our favorite customers and meeting new ones. We've got a lot to talk about!
